Profile:

Creative and detail-oriented Front-End Developer with strong proficiency in React.js, modern JavaScript (ES6+), and responsive UI frameworks like Tailwind CSS and Material UI. After transitioning from a medical background to pursue Computer Science, I've passionately built interactive UIs, dynamic SPAs, and responsive applications. I thrive in clean, maintainable code and intuitive user interfaces. Always eager to learn, improve, and contribute to impactful web experiences.

Skills:

- Languages & Libraries: JavaScript, HTML5, CSS3, React.js
- Frameworks & Tools: Tailwind CSS, Material UI, Bootstrap
- Version Control: Git, GitHub
- Others: Responsive Design, Flexbox, CSS Grid, UI/UX, REST APIs, Node.js (Basic), MongoDB (Basic)
- Soft Skills: Problem Solving, Adaptability, Time Management, Continuous Learning.

Academic Projects:

Fiverr Clone (*React.js, Tailwind CSS*)

- Developed a fully responsive Fiverr marketplace clone with user authentication, gig listings, and order management.
- Implemented dynamic routing, state management using React Context API, and integrated payment workflow simulation.

Calculator App (*HTML, CSS, JavaScript*)

- Built a functional calculator with basic arithmetic operations and a clean UI.
- Emphasized semantic HTML, CSS Flexbox layout, and vanilla JavaScript event handling.

Weather Application (*React.js, Material UI*)

- Built a weather app with real-time API data fetching.
- Implemented responsive UI with clean search functionality.
